

Cybersafety at SHPS

Name: _____

Section A

1. Who has to complete and sign a cybersafety use agreement form?
2. What is the school's computer network, internet and ICT equipment to be used for?
3. What may the school do/use to check material received or sent by teachers/students is appropriate?

Section B

4. What do you have to do before you can use the school's ICT equipment?
5. At interval someone in your class tells you about a new game they played online at home. You know you have time on the computer during literacy – is it okay for you to download the game while you are working, and play it at lunchtime? Why/why not?
6. If you are not sure if something you want to do on the computer/ICT equipment is appropriate, what should you do?
7. What do you need before you can go online?
8. What are you definitely not allowed to do using ICT equipment at school?
9. If you were going to do an internet search, what would you need to be careful about? Why?

10. How should you deal with something rude or mean coming up on a computer screen or on ICT equipment?
11. What do you need before you use ICT equipment from home, at school?
12. If you are using your own ICT equipment at school, do you have to follow the SHPS cybersafety rules?
13. What are you not allowed to post online, unless you have been given permission to do so? Why is this something to be very careful about?
14. Explain how you need to treat the school's ICT equipment? Give 3 examples of what this might look like?
15. What would happen if you broke the SHPS cybersafety rules?
16. Are you allowed to change school computer settings? For example, changing the desktop pictures, shape of the cursor, moving folders that are not yours, etc).
17. If you have forgotten your username or password, are you allowed to log in using someone else's details? Why/why not?
18. Complete a T chart about what cybersafety looks like and sounds like.
